“RurBan” is the amalgam of **‘RURal’** and **‘urBAN’**. The aim behind **The Rurban Village** is to get people to know the importance of nature and rural living – which helps promote and conserve the environment. That is promoting environmentally responsible for travelling while you enjoy an amazing weekend getaway! Don’t worry, we keep in mind all the urban necessities in today’s world and make sure your travel is leisurely. Our ambition to reconnect to rural life amidst a natural setting, which gave birth to the idea of **“The RurBan Village”**.

THE CONCEPT

The RurBan Village is determined and dedicated to protect and preserve the natural environment and we are deeply concerned to bring harmony in nature while promoting rural tourism. We have tried to incorporate activities that are nature-friendly such as - solar energy to generate electricity, vermi composting , use of drip irrigation to conserve water and planted over 70,000 trees and plants to promote afforestation.

We are passionate about promoting and enhancing the “Go Green” culture which is harboured in our motto to provide each guest with “a better life” (ekum sukham jeevanam)!

We welcome you to experience rural life, entertainment, sports, and cultural activities! We invite you to join us to promote nature conservation and to maintain the spirit of rural India while enjoying and experiencing an amazing weekend

50 + Engaging activities | 17+ Acres of Green Land | 10+ Luxurious Tents & Cottages | 7+ Event Areas | 70K+ Well maintained Trees & Plants

ENVIRO-SOCIAL

While it is important being human and showing responsibility towards society, it is also important to care for the environment which is the backbone for living beings. Hence the “Enviro-Social” initiative at **The Rurban Village** has always been at the forefront.

The Rurban Village has come into existence not only to create a community of travellers who like a Rural experience with Urban amenities but to bring together people towards a social cause. A rural tourism initiative to promote the rural culture and environment.

Our Environment-friendly initiatives:

- A travel destination and resort created not by eradicating plants and wildlife but by sowing more than 70,000 plants and trees to create an adobe for wildlife to prosper!
- Promoting the inhabitation of more than 25 different birds and other species and growing by the day.
- To create awareness towards the importance of nature
- To spread awareness about renewable sources of energy and energy conservation such as Solar power and water harvesting
- In-house Organic Farming and Multi-layer farming

Our steps towards the welfare of society:

- To uplift and promote rural employment and agriculture
- Promoting local sales of raw materials
- Be a responsible tourist - make travellers more aware of the carbon footprint they leave behind
- Minimizing wastage and spreading awareness about sustainable agricultural techniques such as drip irrigation, compost making, etc.
